23 April 2018

Dear Parent

Student Name: (Form) **Y11 Resistant Materials Booster Session: Tue 1 May 1.50pm – 6.00pm**

We have arranged for selected Year 11 students who are taking GCSE Resistant Materials to attend a booster revision and catch-up session in school on the above date. Students would usually have option D in period 6 anyway after school. We will be liaising with other option D subject teachers asking them to release Res Mat students for the afternoon (unless they have an exam).

Selected Year 11 Resistant Materials students are required to attend this session to help improve their GCSE grade. Their controlled assessment project is worth 60% of their final GCSE grade. This project includes the research, design, modelling, testing and evaluation as well as the manufacture of a completed final product. The final deadline for submission of this project is Tuesday 8 May 2018.

On this occasion, we are not seeking signed parental permission slips because students would usually be attending a period 6 lesson after school anyway. We will be providing a pizza supper for all students who attend along with suitable refreshments. This session is being offered due to the Easter revision day being cancelled at the last minute, as a result of a power outage which prevented us from using the technology and IT equipment.

We are fully committed to ensuring that every student reaches their potential in their GCSE exams and that they are able to progress to their preferred college, 6th form centre or employment with training. We are sure that you want to see your child achieve their potential and would ask for your support and encouragement for your son/daughter to join this catch-up session.

If you have any questions relating to this event, then please do not hesitate to contact me.

Yours sincerely

Mrs A Brown
Associate Team Leader – Design Technology
