18 January 2019

Dear Parent

### Student Progress Boards

This week we have created **progress boards** in the main corridor of the academy for all year groups. Students have been positioned on the board according to factors that, when combined together, allow them to make excellent progress. These factors are attendance, completion of home learning, commitment to learning and progress to target from their academic reports. Students have shown a huge interest this week in where they are on the progress board, which has been fantastic to see!

As you will be aware, we expect our young people to conduct themselves in the right way and we have been doing a lot of work on installing our STAR ethos. We have used this theme to link the categories of the progress board to the layers you pass through to reach the stars; therefore sea level is group 6 and students move up towards the exosphere which is group 1.

Students may find themselves higher or lower than they were expecting. The students in the highest category, the exosphere, will have excellent attendance, have consistently shown positive commitment to their learning, ensured home learning is completed to a high standard and on time, and are making progress with their learning.

Conversely, if for example their attendance or home learning is poor and all the other measures are fine, then this may push them lower down the board. Form tutors will be able to help students find out what they need to do to improve and move upwards towards the exosphere.

This is not about being a 'good' or a 'bad' student. Nor is it based on students getting the highest or lowest grades. It is about knowing what happens when we put all of the features that make good progress together. If you should wish have any further clarification on this, please do get in touch.

Yours sincerely

Richard Hawkes
